

Who We Are

Arneja Plastics provides complete plastic packaging solutions in the wholesale market. We have been the leading manufacturers in the Northern Region for a long time. Over the past few years, we entered the retail market and the overwhelming response made us expand our range and designing of household products. Aiming primarily at customer demand, we wish to provide them complete satisfaction.

Director's Message

With hard work comes success and with that a lot of responsibility. Believing that it is the drive inside us which creates our destiny, every member of our team works to his fullest potential to revolutionise the process of production. Having our focus based on ultimate customer satisfaction, we innovate and incorporate newer ideas into products of everyday use.

Mission Vision - With a vision to evolve each product with changing demands, we look forward to innovate products with multiple raw material. We look forward to deliver products that stand out in the international market in the near future. And I hope we keep learning and imbibing the values of hard work and perseverance each day.

Sargun ArnejaDirector

- We have the highest quality injection mounding and PET blowing machines
- Complete in house manufacturing
- A trained team of designers and engineers.
- Hygiene guidelines followed at every step of production and transport.
- We aim at customer satisfaction

Why Choose Us

Premium Quality - Manufactured from the finest raw material under complete and careful supervision, we assure that our buyers get the best quality products made under norms that follow the highest standards.

Strength - After passing tests such as migration test, environment friendly crack resistance for over 48 hours; we assure that our products have impervious solid foundation for maximum customer satisfaction.

Amalgamation of Luxury and Economy - The primary aim while designing Is to bring an elite and eye catching design in the range of household products to break the monotony of home storage. Along with it, we provide maximum practical utility while designing each product.

Uniqueness - While developing every new product, we extensively research our market and consumer needs and adapt it into designing not just to create, but to innovate a product. Hence, each product from our manufacturing unit is a quarantee in itself to stand apart.

Environment Friendly - Starting with the usage of recyclable plastic we took an initiative to heal the environment. A part from the sale of each bottle is put into planting trees under the Green Smile campaign started after the launch of Azure.

Green Smile Initiative

Annually, over seven million people die prematurely globally due to the toxic effects of air pollution. We, at ARNEJA initiated a movement the "GREEN SMILE" where we raise funds and dedicate it all to the future of our environment. Planting trees to put up a smile on our earth and an apology for the damaging ecology of human society is our prime motive. Making a pledge to make this earth a better place to live in, we would do our best to put up a green smile of freshness on one and all.

- Fancy Designing
- Durability
- Sterdy
- Attachtive

Transparent Body

- Glossy
- See Through
