He was very single-minded about going to Canada for advanced studies as he applied in a row three times before coming to us and every time the reason given by the High Commission was that it was not satisfied that he will leave Canada at the end of his studies. The reason said that Yashpreet had no economical & personal ties to the home country India.

When this case came to us, we knew all what the embassy demands when it talks about economic and family lashes to the country. Our Operation and Documentation department tried best to collect and attach all the resources he had including his property, all the mutable and fixed assets & everything his family owned. Our dedicated filing specialists worked on his SOP explaining the legitimate reasons for his previous refusals and trying to convince them about his career goals in India which made the Embassy surer about his come back to his home country after completion of his studies from Canada. After continuous efforts of our assortment of departments, we succeeded in getting his study permit approved for Yorkville University- Bachelor of Business Administration course.

People normally believe that English Language Courses have no scope in near future in any of the country. We applied for Deepakpal with all the hopes & efforts to get his visa permitted by the deputation. Our admission team applied at Richard Language School for Academic year 28 Lessons which was all about learning English as a Language & received the LOA for the same. Students don't apply for English Language Course, rather they apply to colleges accepting low IELTS score but it was a blow that we thrived in the sanction of UK student visa for an English Language Program without IELTS for RLC, UK. Our team has got all the knowledge required for the documents, funds, statement of purpose, offer letter, universities at different places. We don't lack at a single step infact we are specialized in turning a failure into success.

IELTS- 6.5 overall with 5.5 in Writing

Gupreet travelled to New Zealand from June, 2016 to February, 2017 as an Intern on Work Visa. After all what he has gained, he wanted to explore more and our sales team counseled him for studying in Germany, all the benefits, future scope, job prospects & career in India after he returns. We applied at Berlin School of Business & Innovation, Germany for MA in International Tourism, Hospitality & event Management. This was a course of 1.5 years with fee structure of 11000Euros in total. Gurpreet and his family were totally relying on us for country, course & college assessments which in the end proved to be very fruitful. Their belief in us was a big responsibility for our team. We specialize in applying with no less of a document as per the checklist of the country. His file was more than a deal to us because of the blind trust of his family and him in SAS. We received Gurpreet visa for Germany in 2019, a month after the application was made. We have been in continuous touch with his family since then & applied for his cousins for Canada and Australia for which we have received visas as well. We are more than happy to work for your future  
Refusal- 3 times from Canada and Australia
